XIBION is a private company created in the United States under the initiative of young entrepreneurs, who aware of the importance of health and the current lack of care for it, consider the purpose of helping people through nutritional products and guides that work as an alternative to improve your lifestyle in a healthy way.

XIBION

SUPPLEMENTS

MANUFACTURED IN

All XIBION products are manufactured, packaged and labeled in the United States. All formulations of XIBION products are adjusted and supervised by the FDA and GMP to protect consumers. XIBION products are free of prohibited substances and are 100% natural ingredients.

FAT BURNER

XIBION POWER DAY

DIETARY SUPPLEMENT / 60 CAPSULES / 2 CAPSULES PER SERVICE

This fat burner can help you stimulate metabolism, reduce appetite and increase energy levels. It could help you a lot on training days by increasing your energy levels and improving your focus. However, it is only effective if taken with a proper diet and moderate exercise.

HEALTHY

HELP TO DEFINE

NATURAL

ENERGIZES

BENEFITS

- It burns localized fat without wearing down the muscle; on the contrary, it helps to define it better.
- It controls anxiety,
- It increases the energy level.
- It controls weight in a healthy way.
- It controls appetite.

NUTRITIONAL INFORMATION

Active Ingredients	Amount per Serving	% Daily Value (*)

PRE TRAINING

XIBION POWER MAX 6

DIETARY SUPPLEMENT / 60 CAPSULES / 2 CAPSULES PER SERVICE

This product will help you energize during your workouts, increases the thermogenic effect on the body and encourages an adrenaline stimulus for intense training. It also contains vitamins, especially those of group B, which are necessary to burn fat and build muscle.

REPAIRER

STRENGTHENING

NATURAL

ENERGIZES

BENEFITS

- It minimizes the body's ability to store fat.
- It promotes the increase in thermogenesis.
- It increases the secretion of excess water.
- Muscle growth and rapid repair.
- It helps maintain an appropriate level of appetite.
- It contains an active compound that can help improve memory, learning and concentration.
- It strengthens body resistance to strenuous exercise.
- It promotes cellular metabolism and energy production.

INDICATIONS

We recommend that you take it as a dietary supplement; take 1 capsule at noon with food and 1 capsule before training, to check tolerance. If the product is satisfactorily tolerated, you can add an additional capsule in the morning, which leads to a total of 3 capsules per day. You should drink plenty of fluids during the day to avoid dehydration.

WARNING

If you are pregnant, nursing or taking any medications, consult your doctor before using it. Discontinue use and consult your doctor if any adverse reaction occurs. This product is a dietary supplement, no charge or any meal replaces a balanced diet.

Other Ingredients: Gelatin, Magnesium Stearate, Silicon Dioxide, Microcrystalline Cellulose, Titanium Dioxide, FD&C Red # 40, FD&C Blue # 1.

(*) (+)% Daily values are based on a 2000 calorie diet. Your daily values may be higher or lower, depending on your calorie needs.

PRE TRAINING

COLLAGEN & BCAA

DIETARY SUPPLEMENT / 30 SERVICES / 360 GRAMS / FLAVORS: WATERMELON AND PINEAPPLE

Collagen is the most abundant protein in our body. Like all proteins, collagen is made up of chains of amino acids that provide resistance and flexibility to our tissues. This is a very important component of the bones, tendons, ligaments, cartilage and skin. BCAAs not only stimulate muscle growth, but establish an entire anabolic environment in our body, providing energy to the muscles, helping the body to burn fat and build muscle simultaneously, while reducing recovery processes and muscular pain.

EACH SERVICE CONTAINS:

- 12 GR
- 4,0 GR L-LEUCINE
- 2,0 GR HYDROLYZED BEEF COLLAGEN
- 1,0 GR L-VALINE
- 1,0 GR L-TYROSINE
- 1,0 GR L-ISOLEUCINE

NUTRITIONAL INFORMATION

(*) % Daily values are based on a 2000 calorie diet. Your daily values may be higher or lower, depending on your calorie needs.

BENEFITS

- It strengthens and moisturizes the skin.
- It regenerates joints, ligaments and tendons in athletes.
- It transmits strength to the muscles.
- It increases resistance.
- It increases nitrogen retention and protein synthesis.

INDICATIONS

Mix a measure (12 grams) and 8 ounces of water during and after exercise.

WARNING

If you are pregnant, nursing or taking any medications, consult your doctor before using it. Discontinue use and consult your doctor if any adverse reaction occurs. This product is a dietary supplement, no charge or any meal replaces a balanced diet.

POST TRAINING

WHEY PROTEIN

WHEY HYDROLYZED PROTEIN / 28 SERVICES / FLAVORS: VANILLA AND CHOCOLATE

A protein shake after training will accelerate the repair processes of damaged tissues during training and therefore accelerate our muscle recovery to be 100% of our capacity in the next training. Hydrolyzed protein is the most suitable protein for post training thanks to its rapid absorption and assimilation, in addition to its high biological value. Right after an intense weight training we need to ingest proteins of rapid assimilation and with a high biological value so that our body begins, as soon as possible, to repair damaged tissues and thus accelerate muscle recovery.

2.2 LB
977 GR
VANILLA

2.4 LB
1092 GR
CHOCOLATE

EACH SERVICE CONTAINS:
26 GRS. OF PROTEIN
25 GRS. AMINO ACIDS
5,3 GRS. BCAA
0,0 GRS. SUGAR
0,0 GRS. CARBOHYDRATES
0,0 GRS. LACTOSE

BENEFITS

- It contains the best sources of branched amino acids.
- It prevents central fatigue
- It is rich in Glutamine
- It boosts the immune system
- It vitalizes growth
- It vitalizes muscle growth and recovery
- It contains digestive enzymes.

MUSCLE PRECURSOR

XIBION POWER SEX

DIETARY SUPPLEMENT / 180 CAPSULES / 4/6 CAPSULES PER SERVICE

Xibion Power Sex is a sports supplement that acts as a muscle enhancer and excellent recuperator, especially in those athletes who perform an important physical activity. During times of high intensity training or long-term physical exercises, the hormonal levels of testosterone, growth hormone, and cortisol directly affect the muscle recovery needed to face another session. Depending on the type and intensity of training, we may need one or several days to recover the basal levels of hormones, and sometimes muscle recovery is clearly negatively affected. It contains Tribulus Terrestris and Fenugreek extract that affect the creation of an anabolic hormonal environment, thus improving muscle growth and overall muscle recovery. This sports supplement also provides a special mixture of zinc and magnesium (ZMA) very important for its regulatory role of IGF-1 and testosterone levels so they affect and improve muscle recovery.

BENEFITS:

- It increases strength and muscle mass.
- It accelerates training results.
- It rises the levels of energy.
- It increases your performance over long periods of exercise.
- It improves your mood.
- It helps muscle recovery.

INDICATIONS

MEN: Take 3 capsules twice a day. Do not exceed two servings in a 24 hour period.

WOMEN: Take 2 capsules twice a day. Do not exceed two servings in a 24 hour period

WARNING

It is not designed to be used by people under 18. Do not use it if you are pregnant or breastfeeding. Consult a doctor before starting any diet or exercise program, or if you have a medical condition. It is not intended to treat low testosterone or sexual dysfunction. Do not use if the packaging has been tampered with. Store in a cool, dry place. (60 ° F to 80 ° F)

COMPARISON TABLE XIBION VS OTHERS

The wide range of nutritional supplements (SN) available in the market, has led to the use of these products not only by athletes, but by an important part of the population related to physical activity. The objective of this comparative table is to know the characteristics of SN consumers, evaluating its consumption in 314 users (198 men and 116 women) of 6 gyms in the US. The results reveal that more than half of the users consume SN (54.5%). Of the consuming men, 69.4% do it to increase muscle mass, while of the total of women 62.2% use it to decrease body fat. The five types of SNs most consumed in relation to their nutrient composition and other sources were proteins (55.6%), amino acids (25.9%), vitamins and minerals (25.1%), food substitutes (6, 4%), caffeine (6.4%) L-carnitine (6.4%). The consumer profile is represented by young, male individuals, those who follow a special nutritional diet, with long periods of work-out in the gym and who exercise several days and hours a week. A large part of the consumers did not present an adequate association between the SN used and the consumption objective of these elements.

UNITED FOR BEST RESULTS!

GET TO KNOW OUR PROGRAMS

We combine all our products to take your training to another level and get results in a short time. Follow the indications of consumption, balanced diet and some physical activity and in 30 days you will get excellent results, weight and fat loss, increased muscle mass, toning, definition and other health benefits, in a natural way.

PERFECT BUTTOCKS

Bumbum Up Intensive

Treatment that combines Power Max 6 and Collagen & BCAA to achieve firm and molded buttocks.

Bumbum Up Super Intensive

Treatment to accelerate the muscle growth of the buttocks thanks to the combination of Power Max 6, Collagen & BCAA and the Hydrolyzed Protein, whose absorption power is faster than any other brand in the market.

Bumbum Up Toning & Definition

The best way to tone and define legs, in addition to strengthen the gluteus muscles, is using this treatment that combines Power Day, Power Night, Power Max 6 and Collagen & BCAA.

HEALTHY BODY

Program Weight Loss

Treatment that helps burn and remove localized fat quickly. Effective combination of Power Day and Power Night, excellent supplements that have many potential benefits for weight loss, health and sports performance.

Program Steel Abdomen

It helps strongly to the definition and to burn abdominal fat thanks to the union of Power Night and Power Max 6.

Program Weight Loss, Cellulite & Flaccidity

An excellent package to say goodbye to sagging and body cellulite in 75%. Collagen & BCAA, Power Day and Power Night combine to help eliminate those flaccid and cellulite areas due to excess fluid and toxins in this region.

Program Power 3

There is nothing better than increasing strength and muscle mass, besides burning some body fat. This treatment fuses Power Day, Power Night and Power 6, the best muscle precursor in the market, to achieve that goal.

Program Xibion Challenge

All our supplements are united for a single goal and it is to obtain fast, efficient, satisfactory results that help the whole body to be healthy and active every day.

OTHER PRODUCTS

Electric stimulators

They reaffirm buttocks, abdomen, arms and legs and strengthen the muscles with electric pulse.

BE A XIBION NUTRITION FRANCHISE!

EXCELLENT BUSINESS OPPORTUNITY

Xibion América es una corporación líder en los EE.UU. con más de un millón de productos vendidos en el 2018, y de mayor expansión en los últimos años. Es por esto que aperturamos el proceso para formar parte de esta gran marca desde cualquier parte del mundo.

XIBION® BUSINESS MODEL STRUCTURE

This business model can be applied in places with privileged points, Kiosks in shopping center. An XIBION NUTRITION store is a type of commercial establishment, physical or virtual, where the buyer can acquire products and services: body measurements, advice and nutritional guides.

The word XIBION NUTRITION implies an establishment with direct attention by a XIBION® seller; it also presupposes the existence of a counter and a showroom or briefly exposure to a space in which the manufacturer exposes its novelties to buyers.

Xibion America is a leading corporation in the US with more than one million products sold in 2018 and more expansion in recent years. That is why we open the process to let you be part of this great brand from anywhere in the world.

We are at the top positions in the international ranking of the market due to the high amount of benefits our products have. XIBION® products positively impact the people's organism because they help decrease the cholesterol, prevent fluid retention, promote good cardiac functioning, purify the blood, rejuvenate and give elasticity to the skin, among other aspects. They also stimulate weight loss and increase muscle mass. Each product undergoes rigorous testing to ensure that it complies with the global legislative and regulatory requirements and is thoroughly tested to guarantee its effectiveness and safety. Every one of our products is hydrolyzed by which ensures rapid absorption in the body. Besides, our products do not contain anabolics or any component that causes addiction or necessarily accelerates change.

XIBION® adapts itself to your body quickly, since our products are 100% natural and can be used by people suffering from health problems like: cardiovascular, diabetes, cancer, Thyroid, among others.

The Microfranchises, distributors and retailers act under the policies of the franchise or microfranchises of the city or the country where you are, being benefited from the experience and image XIBION® brand worldwide. Along with this motivation the following are added benefits to our business partners:

1. You have the possibility to launch a Company with little capital.
2. You reduce risk and uncertainty, for it is a proven successful project worldwide
3. You benefit from better purchasing power before the suppliers of the XIBION® chain.
4. You receive training and ongoing assistance provided by XIBION®
5. You have access to the best doctors, nutritionists, obesologists, thanks to the health services and specialists of the DOCSERVI center.
6. You benefit from constant research and development of new products and services.
7. You have the possibility to create your own business as an independent belonging to a great organization
8. Access to the intelligent system (XIBION® software) that it has financial, marketing and customer portfolio.
9. Exclusive right for the leading Bumbum Up® plan (increasing of buttocks).
10. Intelligent system (software) is a computer program that has characteristics and behaviors similar to that of human intelligence, that increases financial performance, eliminates human errors and timeouts.
11. Rights of exploitation and use of the brand.
12. Geographical Zone Exclusivity
13. Client portfolio: XIBION® will redirect clients that are already habitual (existing) or new clients, as well as potential customers for distribution and wholesale purchase (drugstores, pharmacies, aesthetics, supplementation stores, gyms etc.)
14. Factory costs: the costs you will get will be the same as those of a manufacturer.
15. Manuals and brand styles.
16. Commercial strategy and business model.
17. Post-opening technical assistance.
18. Corporate advertising and marketing campaign.
19. Constant capacity in the area of development and innovation.
20. Exclusive equipment and software system of the XIBION® brand.
21. Smart Location (support in local search as Google Adword).
22. Business coach. (Supervision, monitoring and support in pre-opening).
23. Training. (Training on the premises before opening).
24. Face-to-face events (artists, models, influencer and brand advertising).
25. Ability to sell internal representations of your territory to other interested franchises.

TRAINING AND FACTORS OF XIBION® DISTRIBUTION

XIBION® networks are formed by a set of distributors and production centers connected to each other through the XIBION® system. These stores can be of several classes, depending on the function they fulfill within the logistics network.

Logistic platforms or central warehouses

Its fundamental mission is to save costs in storage and distribution of products:

- Upon receiving larger orders.
- When distributing in pharmacy networks or gyms.

Regional and local stores (DISTRIBUTORS)

They serve customer orders or outlets in a specific geographical area. If in the consolidation warehouses they tried to consolidate or group shipments, the mission of these Warehouses is just the opposite. The main function of the network distribution is to maintain inventories to meet the XIBION® market's demand.

Other additional functions of great importance are:

- To function as service and advice centers.
- To function as a dietary center or weight control.
- To optimize or satisfy a level of services to the established consumer.

Factors we need to have a XIBION® distribution

- Availability of products.
- Response time.
- Variety of products.
- Visibility of the order.
- Customer experience.
- Power of return.

Ultimately, the decision criteria that have more weight in the design of a distribution network are:

- The ability to meet the customer needs.
- The necessary investment to achieve it.

LEVELS FOR DISTRIBUTION

BASIC AND INTERMEDIATE LEVEL

1. Use and support of the XIBION® brand in your own social networks.
2. Printed publications such as: brochures, posters, catalogs, cards of presentation, identification card and others.
3. Participation in outdoor advertising by XIBION®, such as: notices, fences, banners, vinyl in vehicles, among others.
4. Participation in the events carried out by XIBION®.
5. Support for testimony advertising thanks to the support of recognized great artists.
6. Delivery of P.O.P material such as: caps, thermos, flannels, leggings and much more.
7. Selected client portfolio

PLATINUM LEVEL

8. Publications of your contacts on the website, as well as on the social networks of XIBION®
9. Realization of exclusive events.
10. Complete client portfolio of the area.
11. Possibility of starting a company with little capital.
12. Access to the intelligent system.
13. Visits of directors and instructors for training.
14. Creation of virtual servers and web startup pages.

TERMS

Xibion wants all its commercial – allies to generate good results. To achieve this, XIBION® has established a countless number of standards and operating processes, based in their previous experience, which franchisees must follow to increase their chances of success. It's due to this that XIBION® does not accept a franchisee candidate unless it meets certain requirements and qualities determined by the corporation such as:

- General skills
- Sales experience
- Investment capital
- Marketing Experience

INVESTMENT

The benefits of being a distributor of our products are many. You will receive training and support tools, you will have a host as the only XIBION® distributor in your area, online advice and invitations to international meetings and conferences. You will still receive incentives for getting in
